

Full Boar concrete grinders are ready to work.

Full Boar's petrol pressure washer with 10m hose, max. 3200psi and 4 cleaning nozzles is the perfect finisher to wrap up the day.

# FULL BOAR CONCRETE RANGE

Heavy-duty drilling and concrete demolition are an easy task for the Full Boar range of rotary hammers & breakers.

**W**hen you've got a tough job in front of you, you want tools that are up to the task. The Full Boar range of concrete tools provides trade-quality performance without the high price tag. Whether you're mixing, drilling, cutting, grinding or even cleaning concrete, Full Boar has a solution for it all and they're available at your local Bunnings.

Heavy-duty drilling and concrete demolition are an easy task for the Full Boar range of rotary hammers & breakers, from a 5kg hammer for smaller inside jobs up to the 50 joules breaking power in the larger breakers. The new addition of the Diamond Core Drill with integrated cooling feed system also has a wide range of cutters that can be found in store. For laying out those pipes or cables, the 125mm dual-blade wall chaser with dust extraction makes clean channels with its twin diamond cutting disks and 5 cutting

widths to suit the installation at hand.

When you're needing more concrete, the heavy-duty cement mixer makes up to 125 litres of mixed wet materials, it's portable and can be emptied either side of the drum, and it's direct drive for constant torque.

For levelling, cleaning or clearing excess concrete, the new 125mm and 180mm Full Boar concrete grinders are ready to work with a diamond disk included, integrated pivoting guard for a crisp edge plus a dust-extraction cover making for a clean and safer worksite.

When the job's done and all that sand, dust and debris needs to be cleaned away, Full Boar's petrol pressure washer with 10m hose, max. 3200psi and 4 cleaning nozzles is the perfect finisher to wrap up the day.

You'll find the full range of Full Boar tools, and a whole new range of accessories to suit the task at hand, available at your local Bunnings. *www*
